

FlexArm™ Plus System for Whipple / Bariatric Procedures

Mediflex offers a holding & positioning system to provide rigid, low-profile liver retraction for optimal surgical field access - without robotic interference

*FlexArm™ Plus
goes where human
arms can't...*

- FlexArm™ Plus permits low-profile positioning without blocking or hindering robot arm movement
- Lapro-Flex[®] articulating retractor 'pushes' the left liver lobe to optimize surgical field view
- Eliminates robotic arm or staff requirement to hold retraction
- Cost-effective, reduces OR time

ORDERING INFORMATION

Product	Ref. No.	Description
FLEXARM SYSTEM	99054-QCLR	FlexArm Plus with Quick-Connect Hex Fitting - Long Reach Post and OR Rail Clamp
HOLDING TIP	69706	Stainless Steel Adjustable Tip Holding Capacity: 3.5mm – 15mm
LAPRO-FLEX [®] RETRACTORS	91682-A	60mm Angled Triangle Base, 5mm x 32cm Shaft Length
	91683-A	80mm Angled Triangle Base, 5mm x 32cm Shaft Length

Lapro-Flex[®] side profile of angled base
